

Delta Engineers & Architects, P.C. provides an Annual Scholarship for Broome Community College's Engineering Program

Presentation of Check to President Laurence Spraggs (BCC) by President & CEO Anthony Paniccia (Delta)

Delta Engineers & Architects, P.C. provides an Annual Scholarship for Broome Community College's Engineering Program

Matthew 7:12 states, "Do unto others as you would have them do unto you." Delta believes strongly in this passage, reinforcing the idea that we are here to help one another and give back to the community that has given us so much.

As stated in my speech upon receiving the Broome County Chamber's 2008 Small Businessman of the Year award, "Greater Binghamton is a reservoir for highly qualified people! We need to find ways to keep these resources here in Greater Binghamton and, in order to do this, we must give them opportunities for meaningful employment. I believe that Delta does just this. Close to 50% of our staff has attended, or graduated from Broome Community College. Broome Community College provides a springboard for local students to get an excellent education at a reasonable price.

We, here at Delta, recognize the need for a quality education and have worked with Broome Community College to be the first business in the area to offer a full tuition scholarship, annually – **The Delta Engineers Presidential Scholarship**. This Scholarship will cover the cost of tuition for one student that enrolls in Broome Community College's Engineering Program. I challenge and encourage all of you here to get involved, invest in our community, and help prepare tomorrow's leaders!"

If you would like to speak to me regarding Delta's professional qualifications or philanthropic contributions, I can be reached at 607-231-6610 or apaniccia@deltaengineers.com
