

Installing the DP Vault 2.1.7 Upgrade:

Please follow the below directions to upgrade your DP Vault software package.

1. Click the link to the DP Vault zip file.
2. Unzip and Save the files to your desktop.
3. Select the DPVault.exe file that you Unzipped in step 2, right click and select copy
4. Go to * C:\ Program Files\ DP Vault 2.0 on your Computer (*or drive that you installed software)
5. Right click and select Paste
6. When it asks if you want to replace the file with the one you copied, click yes.

Your upgrade is complete!
